Day Care Procedure Schedule - Optima Restore / Health Suraksha

Annexure: List of Day Care Procedures (Page 1 of 4)

1. Microsurgical Operations on the Middle Ear (ENT)

- 1.1 Stapedotomy and Stapedectomy
- 1.2 Revision of a stapedectomy / stapedotomy
- 1.3 Myringoplasty (Type-I Tympanoplasty)
- ? 1.4 Tympanoplasty (closure of eardrum perforation and reconstruction of ossicles)
- 1.5 Revision of a tympanoplasty
- 1.6 Other operations on the auditory ossicles and middle ear
- 1.7 Myringotomy with insertion of grommets / aeration tubes

2. Operations on the Nose & Nasal Sinuses (ENT)

- 2.1 Excision of acoustic neuroma and skull base lesions (day care protocol)
- 2.2 Excision of nasal polyp and polypectomy
- 2.3 Submucous resection of nasal septum (SMR)
- 2.4 Septoplasty and turbinate reduction surgery
- 2.5 Functional Endoscopic Sinus Surgery (FESS)
- 2.6 Nasal sinus aspiration and antral puncture

3. Operations on the Eyes (Ophthalmology)

- ? 3.1 Cataract surgery by Phacoemulsification with intraocular lens (IOL) implantation
- 3.2 Extracapsular cataract extraction (ECCE) with posterior chamber lens implant
- 3.3 Intracapsular cataract extraction (ICCE)
- 3.4 Incision of the tear glands and lacrimal apparatus surgery
- 3.5 Operations on the eyelid: Chalazion incision, Entropion and Ectropion repair
- 3.6 Pterygium excision with conjunctival autograft
- 3.7 Glaucoma surgeries: Trabeculectomy and iridotomy
- 3.8 Pars plana vitrectomy and retinal laser photocoagulation
- 3.9 Corneal foreign body removal and corneal collagen cross-linking

4. Operations on the Mouth, Face & Throat

· 4.1 Tonsillectomy without adenoidectomy
· 4.2 Tonsillectomy with adenoidectomy
· 4.3 Adenoidectomy alone
· 4.4 Incision and drainage of peritonsillar abscess (Quinsy)
· 4.5 Biopsy of tongue, lip, and oral mucosa lesions
? 4.6 Repair of cleft lip and palate (congenital exclusions apply unless specified)

· 4.7 Excision of submandibular and parotid salivary gland calculi

5. Operations on the Digestive Tract & Abdomen

· 5.1 Diagnostic and therapeutic upper gastrointestinal endoscopy (UGIE)
· 5.2 Colonoscopy with polypectomy / lesion excision
· 5.3 Endoscopic Retrograde Cholangiopancreatography (ERCP)
? 5.4 Laparoscopic Appendectomy (where discharged within 24 hours under day care criteria)

· 5.5 Sclerotherapy and band ligation of esophageal varices
· 5.6 Liver biopsy and therapeutic aspiration of hepatic cyst
· 5.7 Diagnostic laparoscopy and peritoneal fluid aspiration

6. Operations on the Anorectal Canal (Proctology)

· 6.1 Hemorrhoidectomy (laser and open surgical excision of piles)
· 6.2 Fissurectomy and lateral internal sphincterotomy for anal fissure
· 6.3 Fistulectomy and fistulotomy for fistula-in-ano
· 6.4 Excision and marsupialization of pilonidal sinus
· 6.5 Incision and drainage of perianal and ischiorectal abscess

7. Operations on the Urinary System & Male Genitals

- 7.1 Extracorporeal Shock Wave Lithotripsy (ESWL) for renal and ureteric calculi
- 7.2 Transurethral Resection of Bladder Tumor (TURBT)
- 7.3 Diagnostic and therapeutic cystoscopy with ureteric DJ stenting
- 7.4 Ureteroscopy and laser lithotripsy (URSL)
- 7.5 Transurethral Resection of Prostate (TURP) under day care monitoring
- 7.6 Surgery for Hydrocele (Hydrocelectomy) and Spermatocele
- 7.7 Orchidopexy and Varicocelectomy (laser / laparoscopic ligation)
- 7.8 Circumcision for phimosis / paraphimosis (medical necessity)

8. Operations on Female Sexual Organs & Obstetrics

- 8.1 Diagnostic and operative Hysteroscopy with endometrial polyp excision
- 8.2 Dilatation and Curettage (D&C) for abnormal uterine bleeding
- 8.3 Conization of cervix and LEEP / LLETZ biopsy
- 8.4 Incision and drainage / marsupialization of Bartholin cyst / abscess
- 8.5 Laparoscopic ovarian cystectomy / salpingectomy (under 24 hours)
- 8.6 Laparoscopic tubal occlusion / sterilization

9. Oncology, Chemotherapy & Radiotherapy (Day Care)

? 9.1 Intravenous Chemotherapy administration for solid and hematological malignancies

· 9.2 Stereotactic Radiotherapy (SRT) and CyberKnife radiation sessions

? 9.3 Linear Accelerator Radiotherapy / Intensity Modulated Radiation Therapy (IMRT)

· 9.4 Bone marrow aspiration and trephine biopsy

? 9.5 Insertion of Chemoport / Central Venous Access Device and PICC line insertion

10. Renal Dialysis & Critical Care Interventions

· 10.1 Hemodialysis for Acute Kidney Injury and End-Stage Renal Disease (ESRD)

· 10.2 Peritoneal dialysis catheter insertion and exchange

· 10.3 Therapeutic plasma exchange (Plasmapheresis)

11. Orthopedic & Minor Musculoskeletal Procedures

· 11.1 Arthroscopic debridement and diagnostic knee / shoulder arthroscopy

? 11.2 Closed reduction and plaster immobilization of simple fractures and dislocations

· 11.3 Carpal Tunnel release and trigger finger surgery

· 11.4 Ganglion cyst excision of wrist and foot tendons

· 11.5 Hardware / plate and screw removal following healed osteosynthesis

General Day Care Conditions & Applicability Note

· b) The treatment is undertaken under General, Spinal or Local Anaesthesia.
